

DREAM BOLD DREAMS

*"At MIS, students are inspired to dream boldly
- and supported to turn those dreams into reality."*

MIS Mission and Vision
2025 +

OUR VISION:

Inspiring and realising bold dreams

OUR MISSION:

Munich International School **inspires, challenges & empowers** students to become:

Bold dreamers who shape their own future and turn their aspirations into reality.

Resilient, adaptable individuals who embrace challenges and persevere.

Culturally respectful contributors who make a positive impact.

Engaged community members who foster belonging and take pride in their school.

MIS accomplishes this through a uniquely personalised and supportive education that bridges learning with the world beyond school — connecting students to meaningful experiences, mentors and leaders — and making learning both relevant and consequential. Our culture of innovation, high aspirations, personal support, academic excellence and deep cultural awareness within a vibrant community, enables students to think critically, take risks, and attain their personal goals.

OUR GUIDING PRINCIPLES:

Realising Dreams: At MIS, students are supported to explore their passions, express creativity, and pursue meaningful goals with determination.

Through educational excellence and a culture of high aspiration, we empower students to take ownership of their growth providing the stretch, guidance, and opportunities they need to discover who they are and realise their boldest dreams.

Cultivating Resilience: At MIS, students cultivate the persistence, adaptability and self-awareness to embrace challenges, take initiative, and navigate setbacks with confidence.

We celebrate progress and achievement and embrace failure within a supportive culture. Meaningful academic and extracurricular challenge and healthy competition in diverse disciplines builds resilience, sparks motivation, and prepares students to meet the opportunities and demands of their future lives.

Ensuring Relevance: At MIS, learning is individualised to students' interests, personalised for growth, and connected to the world beyond school.

Students apply their learning in real-world contexts through interdisciplinary study, partnerships beyond the classroom, creative projects, and critical technologies. They gain structured exposure to career pathways and build the critical thinking, problem-solving,

communication, and entrepreneurial skills needed to thrive in a rapidly changing world. In doing so, learning becomes consequential — for each student and for the communities they are part of, now and in the future.

Amplifying Community: At MIS, we engage our international community to build strong connections and provide opportunities for students, while fostering a sense of belonging.

Through mentorship, real-world projects, and internships, our network supports our students to discover their own paths and realise their dreams. Shared experiences and clear expectations foster a strong sense of identity, pride, trust and belonging across our whole community. Students develop the cultural awareness, empathy, integrity and respect to navigate both local and global contexts with confidence and kindness.

Pursuing Excellence: We strive for excellence in all we do - educationally, operationally, and strategically. Foundational excellence is essential to achieving our educational aims, meeting our community's needs, and supporting our students' boldest dreams.

Operational excellence is the backbone of realising our mission and goals. Through strong leadership, exceptional educators, robust systems, and responsible financial planning, we ensure long-term impact and resilience. Our commitment to continuous improvement — across teaching and learning, operations, and our people — creates the stability, stretch, and innovation students need to thrive, and positions MIS as a leading international school globally and a model of excellence.
